NEW GEN WELDERS FOR NEW GEN STEELS

DENT SPOTTER 4000

- Microprocessor controlled, electronic system for repairing of metal sheets, fit for applications in car body shops.
- Adjustment of welding current according to the part to be welded

Features

- 5-function control managed by encoder
- The 2600 A allows to carry out all the straightening and welding operations of accessories such as a higher powered dent puller.
- The manual gun with trigger ensures maximum precision in the correct positioning of the welding electrode.

Advantages

- Remove dent without disassembling vehicle fittings
- Reduce the down time
- Constant current control

Technical Specification
